AgilePoint Platform Overview

agilepoint®

AgilePoint NX is an all-in-one intelligent process automation platform for the modern enterprise. We help ambitious tech leaders to bring products to market faster, create dramatically reimagined experiences, massively improve operational efficiency, and reduce tech development cost.

"Scores from reference customers for AgilePoint's pricing and value for money were higher than those received by most other vendors."

Gartner®
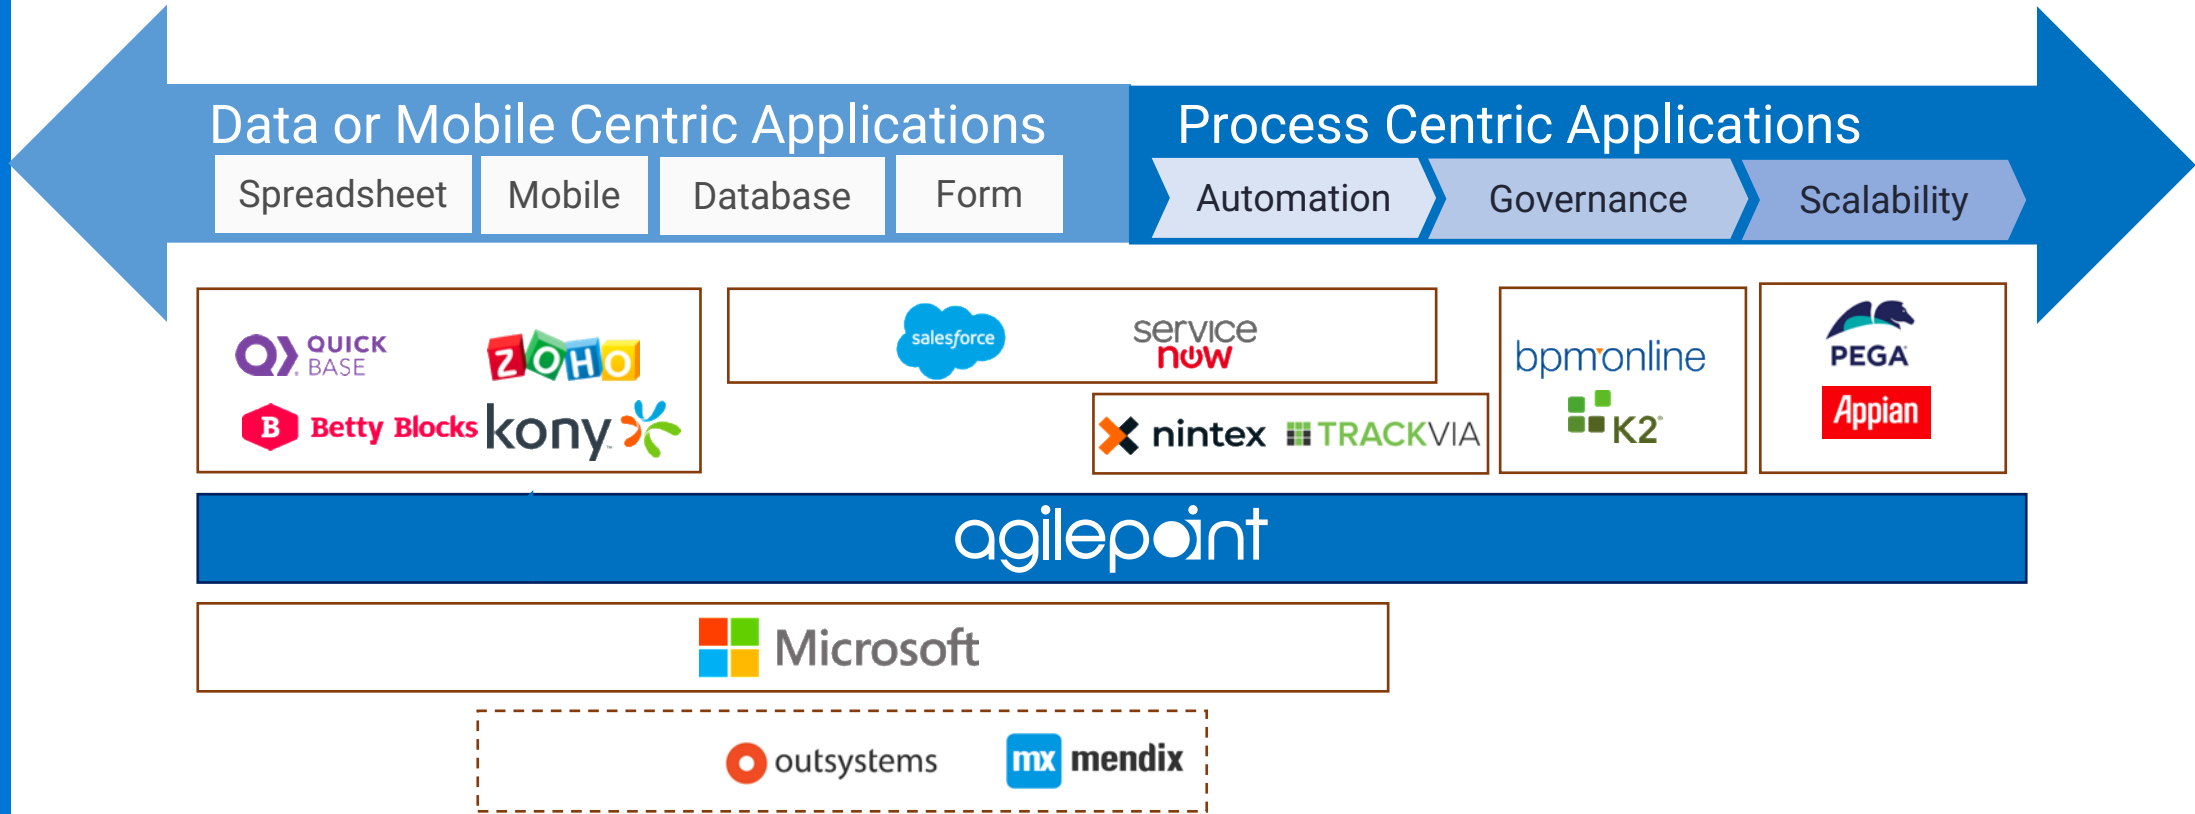

AgilePoint Scores 5/5 for Product Vision in The Forrester Wave™: Low-Code Development Platforms For Professional Developers, Q2 2021.

FORRESTER®

Process Centric Applications

Automation → Governance → Scalability

A Complete Hyperautomation Stack

Hyperautomation

Hyperautomation is a business-driven, disciplined approach that organizations use to rapidly identify, vet and automate as many business and IT processes as possible. Hyperautomation involves the orchestrated use of multiple technologies, tools or platforms, including:

- Artificial intelligence (AI)
- Machine learning
- Event-driven software architecture
- Robotic process automation (RPA)
- Business process management (BPM) and intelligent business process management suites (iBPMS)
- Integration platform as a service (iPaaS)
- Low-code/no-code tools
- Packaged software
- Other types of decision, process and task automation tools

Source: Gartner Glossary

| Technology Needed to Achieve Hyperautomation	AgilePoint Features
Artificial Intelligence (AI)*	✔
Event-Driven Software Architecture	✔
Robotic Process Automation (RPA)*	✔
Business Process Management (BPM)	✔
Intelligent Business Process Management Suites (iBPMS)	✔
Integration Platform as a Service (iPaaS)	✔
Business Process Management (BPM)	✔
Low-Code/No-Code Tools	✔

*AgilePoint integrates with AI and RPA providers. These are not innate platform features.

AgilePoint Core Capabilities

RPA Augmentation

Add robust and dynamic human workflow to any RPAs

UiPath – Blue Prism – Automation Anywhere – Microsoft Power Automate

Easily create and maintain hundreds of process apps to automate customer journey, sales, marketing, back-end operations, and more.

Drag and drop allows you to quickly develop forms and digital workplace apps that interact with multiple sources.

Process-Driven Apps

Data-Driven Apps

Cloud-Ready Apps

Mobile App Accelerator

Your Apps

On premises

Cloud & SaaS

Build-Once and your apps are always on-premises and cloud ready.

Build-Once and your apps are always mobile ready, including creating private-label, native mobiles apps.

Federated Multi-Region Operations Ready

Regional Data Privacy Compliant

Out-of-the-Box Functionalities

700+ Workflow Actions

70+ Connectors to the Most Popular Systems and Cloud Services

65+ E-Form Controls

15+ Dynamic Process Patterns Supported

30+ Portal Page Builder Widgets

6 Layers of Granular Security

65+ App Templates in App Store

50+ OOTB Canned Reports and Dashboards

Out-of-the-Box Functionalities

12+ Document Repositories Supported

12+ Authentication System for SSO

12+ Data Sources Supported for Reports and Dashboards

25+ Charts Types Supported in Analytics Module
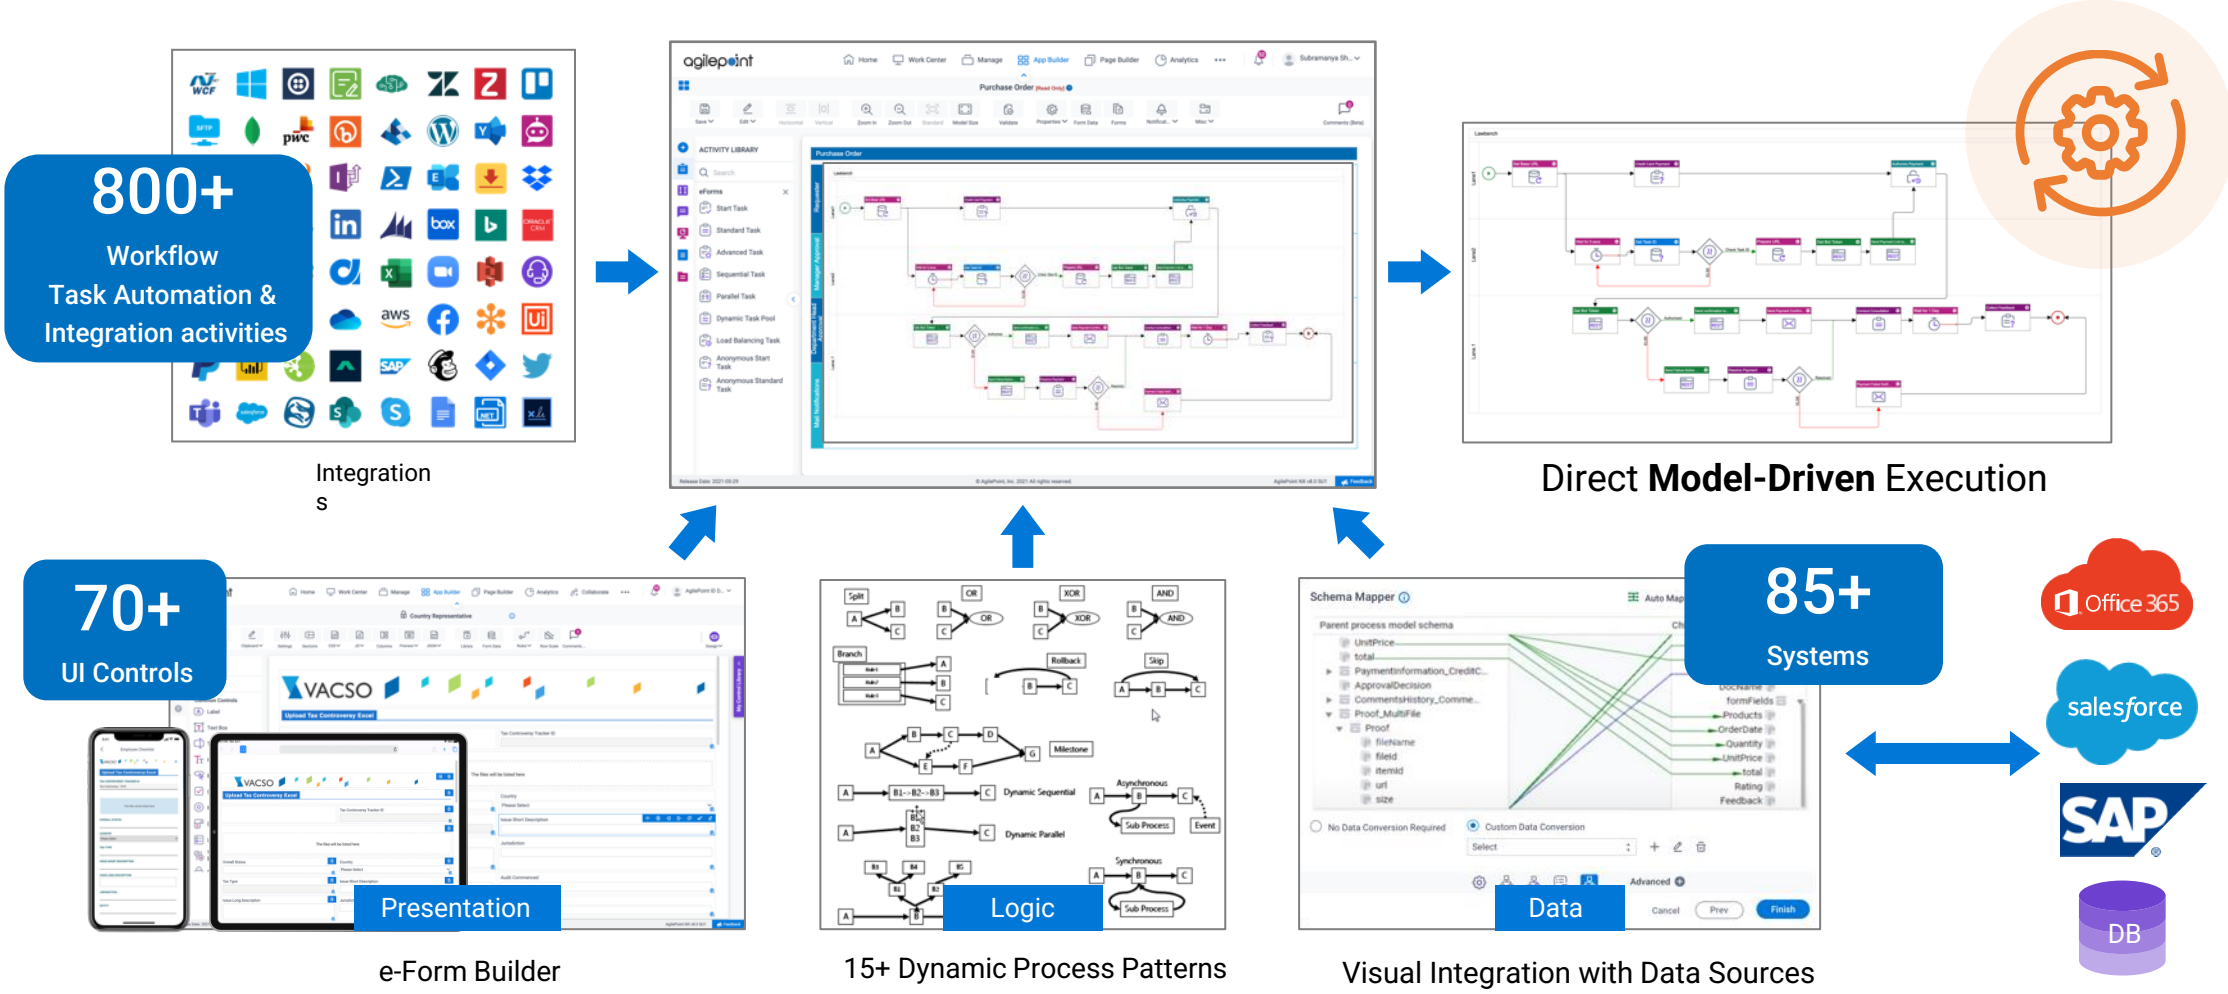

10+ Omnichannel Task Notification Channels

70+ External Data Repositories

Mobile-Ready for Deployment Immediately

Business Results Only AgilePoint Can Provide

Elbit Systems™

667.5% Reduction In

Average PO Processing Time

From 28 Days to 4.5 Hours

75%
of Elbit's 70 AgilePoint applications are business critical

5 million
Processes per year between headquarters and global subsidiaries

30,000
Concurrent running processes instances on average

< 1 day
Average purchase order processing time for amounts over $2M

THE SALVATION ARMY

80% Faster

Application Development Cycles
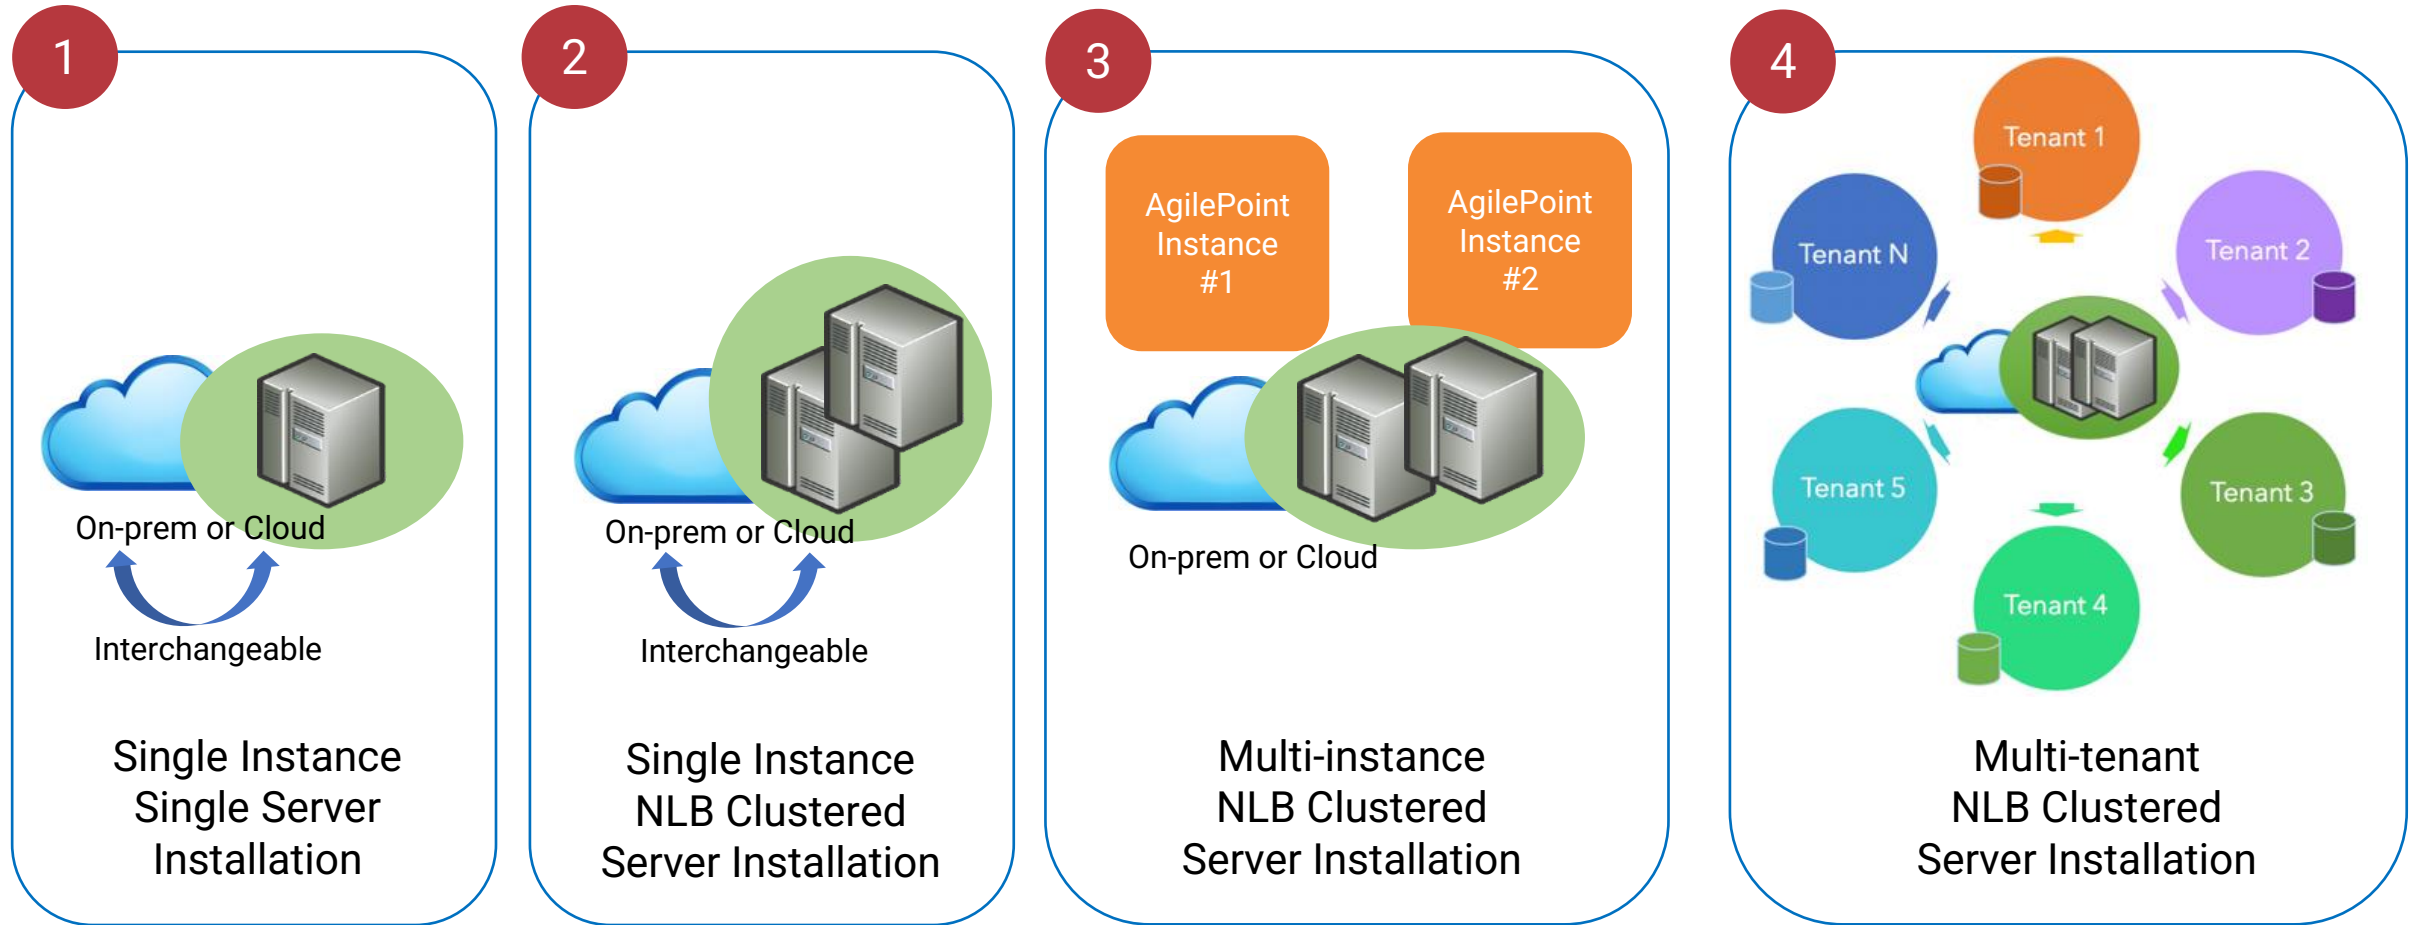

From months and years to days

200%
Increase in the number of applications developed with same budget

Over 6,000 active users leveraging the concurrent pricing model

100%
Future-proof infrastructure allowing for easy migrations and reconfigurations

70%
Of all applications are developed with no IT support needed

Deployment Options

1 Single Instance Single Server Installation

On-prem or Cloud

Interchangeable

2 Single Instance NLB Clustered Server Installation

On-prem or Cloud
